ANTI-VANDAL SWITCHES

E-Switch's anti-vandal switch series is great for any medical equipment that requires some type of water-resistance. Not only are they aesthetically designed, they offer dot or ring illumination options, and come in multiple sizes as well.

These anti-vandal switches work great in any application requiring a robust and secure product.

KEYLOCK SWITCHES

E-Switch offers a large variety of keylock switches that work great for different security environments within the medical industry. With both barrel and flat key options, and a larger variety of key code options, you will find the one that works best for your project.

Other options include many different sizes and functions to choose from.

PUSHBUTTON SWITCHES

E-Switch offers many pushbutton switches geared toward the medical industry. Our products offer quality you can trust with many options that are sure to fit your application.

Many variations are available, including illuminated and non-illuminated versions, custom markings on caps, panel mount and board level pushbutton switches.

ROCKER SWITCHES

E-Switch offers rocker switches that are perfect for your panel mount medical devices.

Our rocker switches come with full illumination or partial illumination, custom markings, IP ratings and more.

Switch Solutions for Medical Applications. With a robust line of switch products, from rockers and toggles, to pushbuttons and tact switches, E-Switch has the solution for your medical device application. Need water resistance? We've got it. Need illumination? We have that, too! Contact E-Switch for your next project. Our engineers and sales support team will be with you every step of the way.

SLIDE SWITCHES

E-Switch's slide switch series offer unlimited possibilities for your medical devices. Great for use in portable medical equipment and smaller devices.

You have a broad range of choices with E-Switch's slide switch products. Many different positions, actuators, and sizes are available.

SNAP ACTION SWITCHES

E-Switch offers snap action switches for a variety of medical applications.

Our snap switches come in many styles, force options and sizes, so you will be sure to find the one needed for your design project.

TACTILE SWITCHES

E-Switch is well known for its reliable tact switches. With a very large family of tact switches to choose from, you will find the perfect fit for your project.

Illuminated and non-illuminated tact switches are available, as are right angle, SMT, PC pin and more.

TOGGLE SWITCHES

E-Switch offers toggle switches that are perfect for your medical devices.

Our toggle switches have multiple bushing and actuator options, are board level or panel mount, and offer multiple termination options.
